

### Adding Color Spots to Your Yard Provides Instant Appeal

As summer begins and your yard and garden begin to take shape for the coming months, don't fret if your landscape still looks drab. Adding already-blooming annuals, known as color spots, is a quick, easy way to beautify your landscape with plants that boast a long flowering season. With color spots you can avoid the pitfalls of planting and growing annuals from scratch. Most of these plants are grown in containers and can be easily transplanted into the garden. [Read More »](#)

### Five Essential Summer Gardening Projects

By now, Pacific Northwest home gardeners are reveling in the opportunity to ready their landscapes for the summer months ahead. Simple, satisfying and essential, these five tips are vital to beautify - and maintain - your landscape. [Read More »](#)

### Make the Most of Your Landscape through Container Gardening

With warm weather upon us, many of you have already taken the opportunity to shape your yards, gardens, decks and patios with color and style. However, I constantly recommend a practice of container gardening for home gardeners that want to add true unique appeal to their landscapes. [Read More »](#)

### TIRED OF SLUGS AND SNAILS DESTROYING YOUR GARDEN?
