

Three Summer Flowers with Staying Power

They say that 90% of life is just showing up. That's true in the garden, too. Then again, a little planning never hurts, whether you're person, plant or flower. Here are three flower choices that will provide beauty, bold color and bountiful blooms from now until the first frost – three flowers that are easy to grow, long flowering and cost effective.

Container gardening: Add color and personality to your landscape

As the weather warms and buds start to sprout throughout gardens in the Pacific Northwest, home gardeners delight in the opportunity to begin shaping their yards, gardens, decks and patios with color and style. While the majority of this is done through choosing flowers and plants that will fill a property, many gardeners understand that there is one common trick that can instantly make a yard stand out from the rest: container gardening.

Quick Tip: Use high-quality potting soil in containers, and keep an extra bag on hand. Wind dries soil out at a faster rate, and higher quality soil will retain moisture longer!

Water Your Garden Without Inviting Slugs

You may invite friends to your garden this summer, but one group you don't want to invite is slugs. Incorrect watering is like an open invitation for slugs to "come on down." There are ways, however, to keep the slug-fest to a minimum. The main thing is to be aware of low areas of the garden where water accumulates from watering or rainfall. Moist, damp areas attract slugs.
