Photo gallery of treated timber applications.

**Grey & White house**

Classic timber home construction using LOSP treated finger jointed boards and profiles have always been popular in New Zealand and now builders in Australia and elsewhere are discovering the benefits of light weight timber construction.

**Blue frame**

Ensuring that timber framing is protected from termites and decay by preservative treatment has become an important component of building practice in most countries.

**Izumigo**

Japanese garden with timber walking platform.

**Kitashi moura handrail**

Treated Australian hardwood used at a seaside resort near Osaka Japan.

**Varsity lakes**

Treated hardwood decking around the commercial hub of Varsity Lakes near the Gold Coast Australia.

**Industrial cooling tower**

Unusual application for a cooling tower in Queensland Australia. The large project involved the use of over a thousand tonnes of heavy section treated timber from New Zealand to form the structure of the tower.

#### **Marine piles**

Treated marine piles secure the marina pontoons near Cairns Australia.

#### **Northlakes Boardwalk**

Treated hardwood boardwalk over wetlands at North Lakes near Brisbane in Australia.

#### **Sabie house log clad**

A fine example of classical South African timber home construction featuring extensive use of roundwood.

#### **Fiji Pole Hotel**

Heavy section treated timber poles are used for the construction of this resort complex in Fiji.

#### **Visit to Korea**

Tanalith E treated timber pedestrian bridge over a stream in Jeju Island, South Korea.

#### **Timber jetty sunset**

The embodiment of serenity, a timber jetty on a beautiful lake at sunset (Rotorua New Zealand).

#### **Wooden walkway Hamilton Zoo NZ**

Treated timber boardwalks and raised platforms make ideal means for people to enjoy the serenity and beauty of natural environments with minimal impact.

#### **Playground**

Timber has been a traditional material for construction of playground facilities and structures. With new generation preservatives such as Tanalith E in Ecowood, these structures are suitable and safe for the most demanding applications.

#### **Timber Boardwalk at night**

Treated timber decking and poles makes a dramatic and a pleasing combination with natural landscaping elements.
